

Section J.4

Government Furnished Property And Services

J-4.1. General. The Government will provide, without cost, the facilities, equipment, materials, and services identified by the Contractor in its proposal from among those offered by the Government in the solicitation. The Contractor is responsible for the physical security of all government-furnished facilities, equipment, and materials.

J-4.2. Facilities. If the Contractor proposes to perform in government facilities, the Government will furnish and make available the facility square footage described in the Contractor's technical proposal. This will include furniture, provided at each government facility being described in the Contractor's technical proposal, associated solely with Security Assistance Accounting (SAA) activities. Government furnished facility space is subject to space allocation policies prescribed in property management regulations.

J-4.2.1. Occupational Safety and Health Act (OSHA). The facilities will comply with OSHA when made available to the Contractor during the phase-in period. If an OSHA facility-related workplace hazard is identified during contract performance, the Government will correct the hazard according to its own abatement plans taking into account safety and health priorities. A higher priority for correction will not be assigned to the facilities provided hereunder merely because of the contracting initiative. The fact that no such conditions have been identified does not warrant or guarantee that no possible hazard exists, or that workaround procedures will not be necessary or that the facilities as furnished will be adequate to meet the responsibilities of the Contractor. Compliance with OSHA and other applicable laws and regulations for the protection of employees is exclusively the obligation of the Contractor, and the Government will assume no liability or responsibility for the Contractor's compliance or noncompliance with such responsibilities with the exception of the aforementioned responsibility to make corrections according to approved plans of abatement subject to the Government's facility priorities.

J-4.2.2. Modification. Prior to any modification of the facilities performed by the Contractor at its expense, the Contractor shall furnish the Contracting Officer documentation describing in detail the modification requested. No alterations to the facilities shall be made without specific written permission from the Contracting Officer; however, in the case of alterations necessary for OSHA compliance, such permission will not be unreasonably withheld. The Contractor shall return the facilities to the Government in the same condition as received, fair wear and tear and approved modifications excepted.

J-4.2.3. Use. Facilities shall only be used for performance of this contract.

J-4.2.4. Facility-Related Government-Furnished Services

J-4.2.4.1. Utilities. The Government will furnish electricity, water, sewage, heating and cooling for facilities provided.

J-4.2.4.2. Telephone Service. The Government will provide class “A” phone lines with local, commercial long distance, and Defense Switching Network (DSN) access for official calls only. Section C-3.1.3 provides a description of allowable telephone service.

J-4.2.4.3. Custodial and Refuse Service. The Government will provide basic custodial and refuse collection services to the extent provided in custodial and refuse contract(s) in effect for co-located government facilities.

J-4.2.4.4. Real Property Maintenance. The Government will provide maintenance and repair of real property facilities to maintain them in the condition existing at the commencement of contract performance.

J-4.2.4.5. Enterprise Local Area Network (ELAN). The Government will provide connectivity to the DFAS ELAN, to the extent that the Contractor complies with the Government’s IT standards with respect to software, hardware, and office automation resources. The Government will not support connectivity software, hardware, and office automation resources that vary from IT standards utilized by DFAS. The Contractor is not entitled to a contract equitable adjustment when IT standards utilized by DFAS change and impact the Contractor’s ELAN connectivity, or require modification or upgrade to IT hardware or software (both Government and Contractor –furnished) utilized by the Contractor.

J-4.2.4.6. Parking. Parking, at Government Furnished Facilities (GFF), will be made available by the Government.

J-4.3. Government-Furnished Equipment (GFE). If the Contractor proposed to utilize specific items of GFE, currently owned by DFAS and exclusively dedicated to Security Assistance Accounting (SAA), the Government will furnish and/or make available items described in the Contractor’s technical proposal in a “where-is/as-is” condition. A detailed GFE listing is attached.

J-4.3.1. Replacement of Government-Furnished Equipment. Should any item of government-furnished equipment require replacement, the Contractor shall be responsible for such replacement at no cost to the Government.

J-4.3.2. GFE Inventories. In conjunction with the transfer of responsibility for security assistance accounting operations during the base period of the contract, specific items of government-furnished equipment will be jointly inventoried. A joint GFE inventory will be accomplished during each contract option period, and a final joint inventory will be made upon contract termination or expiration of any contract period during which the Contractor has not received notice of exercise of a contract option. The Contractor shall sign a receipt for all equipment provided by the Government. The Contractor and the Government shall jointly determine the working order and condition of all equipment; items of equipment missing or not in working order shall be recorded and the Contracting Office notified in writing. The Government will not replace missing items, nor will it

repair items not in working order. The Government will give disposition instructions for GFE items when notified by the Contractor that it no longer desires to utilize an item of GFE. GFE shall be disposed of according to applicable government property management regulations. If the Contractor does not participate in an inventory, the Contractor must accept as accurate the listing and stated condition of equipment provided by the Government.

J-4.3.3. GFE Maintenance. The Government will not maintain or repair GFE. All GFE is provided on an “where is/as is” basis. The Contractor shall be responsible for maintenance of government-Furnished equipment for its useful life.

J-4.3.4. Replacement of GFE. The Government will not replace GFE; GFE is offered on a one-time, “where-is/as-is” basis at the outset of contract performance. If GFE items of government-furnished equipment require replacement, the Contractor shall be responsible for such replacement at no cost to the Government.

J-4.4. Property Accountability. By completion or extension of the contract, a joint inventory of property will be conducted by the Contractor and a Government representative. The Contractor shall be liable for loss and damage to Government Furnished Property (GFP) in accordance with FAR Clause 52.245-5, Alternate 1 entitled “Government Furnished Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts) Alternate 1.” Compensation shall be effected either by reduced amounts owed to the Contractor or by direct payment by the Contractor. The contracting officer will determine the method. All property in need of repairs/maintenance for which the Contractor is liable shall be repaired/maintained by the Contractor before the joint inventory is made. All such repairs/maintenance not performed by the Contractor shall be done at the Government’s option and at the Contractor’s expense. In the case of damaged property, the amount of compensation due the Government by the Contractor shall be the actual cost of repair, provided such amount does not exceed the economical repair value (75% of the costs to replace such item). In case of items lost or damaged beyond economical repair, the amount of the Contractor’s liability shall be the depreciated replacement value of the item to be determined by the contracting officer. Any failure of the Contractor to agree with such determination shall be treated as a dispute pursuant to the clause of this contract entitled “Disputes.”

J-4.4.1. Disposition of Property. When government furnished property is determined to be beyond economical repair or upgrade, is replaced by the Contractor, or is no longer used for performance of the contract, it shall be certified by the QAE as condition condemned and reported to the Property Administrator designated by the contracting officer or contracting officer representative. Upon completion of the contract, all remaining government property shall be reported to the Contracting Officer in accordance with FAR 45.6.

J-4.5. Use of GFE, GFP, Government Furnished Facilities (GFF), Government Furnished Materials (GFM), and Government Furnished Services (GFS). Use shall be limited to that required for the performance of tasks in the PWS.

J-4.6 List of Properties, Facilities, Materials and Services offered by the Government:

GOVERNMENT FURNISHED PROPERTY	
Defense Integrated Financial System (DIFS) (Optional) – (see system descriptions in Section J.7 for additional information.)	
Description of Software	<ul style="list-style-type: none"> - Application Programs - Program Specifications - Job Control Language
Documentation	<ul style="list-style-type: none"> - Operations Manual - Systems specifications - Job Control Language - Menus

Interfacing Systems (Required)—See Section J.5
